

rawtmlib

January 12, 2017

Abstract

Utilities for processing Raw TM Data files

1 Use

This library is intended to contain the proper external processors for handling rawtm files, including DUstream creators (from the raw files), external processors (for processing for instance given frames), etc...

pipeline processing	no
interactive analysis	no
Raw TM analysis	yes

2 Description

See detail information in duproc, frmproc and related tasks.

3 Parameters

This section documents the parameters recognized by this task (if any).

Parameter	Mand	Type	Default	Constraints
-----------	------	------	---------	-------------

mandatoryparam	yes	type	default value	constraints
-----------------------	-----	------	---------------	-------------

description for mandatory parameter

optionalparam	no	type	default value	constraints
----------------------	----	------	---------------	-------------

description for optional parameter

4 Errors

This section documents warnings and errors generated by this task (if any). Note that warnings and errors can also be generated in the SAS infrastructure libraries, in which case they would not be documented here. Refer to the index of all errors and warnings available in the HTML version of the SAS documentation.

label (<i>error</i>)
explanation
label (<i>warning</i>)
explanantion
<i>corrective action:</i> this is the corrective action
