

rgsfluxmodel

January 12, 2017

Abstract

Turn an RGS fluxed spectrum into an XSPEC table model

1 Instruments/Modes

Instrument	Mode
------------	------

2 Use

pipeline processing	no
interactive analysis	yes

3 Description

Turn an RGS fluxed spectrum into an XSPEC table model.

Experimental task released for testing purpose.

4 Parameters

This section documents the parameters recognized by this task (if any).

Parameter	Mand	Type	Default	Constraints
-----------	------	------	---------	-------------

table	yes		string	
--------------	-----	--	--------	--

RGS fluxed file

outputfilename	no		string	
-----------------------	----	--	--------	--

Output file name.

5 Errors

This section documents warnings and errors generated by this task (if any). Note that warnings and errors can also be generated in the SAS infrastructure libraries, in which case they would not be documented here. Refer to the index of all errors and warnings available in the HTML version of the SAS documentation.

label (<i>error</i>)
